Botanical Name: *Pogostemon cablin*

Aroma: Woody, earthy

Benefits/Uses: Promotes grounded feelings, soothes skin, repels insects.

Additional Information: Derived from patchouli leaves, used in perfumery and aromatherapy.

Patchouli oil

Botanical Name: *Mentha piperita*

Aroma: Minty

Benefits/Uses: Supports respiratory function, relieves headaches, soothes digestive issues.

Additional Information: Derived from peppermint leaves, used in cooking, skincare, and aromatherapy.

Peppermint oil

Mentha piperita

- **Aroma:** Both herbaceous and camphoraceous
- **Benefits/Uses:** The minty aroma of Peppermint very clearly helps with two issues: the occasional upset stomach and healthy respiratory function.* Apply it topically to relieve feelings of tension.

Petitgrain oil

Citrus aurantium

- **Aroma:** Woody, green
- **Benefits/Uses:** The “manly Lavender”, Petitgrain is primarily a calming and relaxing oil that can ease feelings of tension, calm the nervous system, and promote restful sleep.* It may also support the cardiovascular, digestive, and immune systems.*

Roman Chamomile oil

Anthemis nobilis

- **Aroma:** Herbaceous
- **Benefits/Uses:** Primarily Roman Chamomile promotes youthful-looking skin, and additionally healthy-looking hair. It can also be taken internally to soothe both your body and mind.* Its aroma is soothing, helping to ease away anger and irritability.

Rose oil

Rosa damascena

- **Aroma:** Floral
- **Benefits/Uses:** Adding Rose to your skincare routine will help balance moisture levels and contribute to producing an even skin tone. It is also a romantic personal fragrance that can turn around a gloomy day.

Rosemary oil

Botanical Name: Rosmarinus officinalis

Aroma: Herbaceous

Benefits/Uses: Improves concentration, supports hair growth, soothes sore muscles.

Additional Information: Derived from rosemary leaves, used in cooking and aromatherapy.

Sandalwood (Indian or Hawaiian)

Botanical Name: Santalum album

Aroma: Woody

Benefits/Uses: Promotes relaxation, supports skin health, enhances meditation.

Additional Information: Derived from sandalwood heartwood, used in perfumery and aromatherapy.

Siberian Fir

Abies sibirica

- **Aroma:** Woody, Christmas trees
- **Benefits/Uses:** Stimulates the senses and helps to reduce feelings of stress while going through difficult situations. Used topically, Siberian Fir brings soothing comfort to the body after vigorous exercise or during a massage.

Spearmint oil

Mentha Spicata

- **Aroma:** Herbaceous, sweet
- **Benefits/Uses:** Similar to Peppermint, Spearmint can help reduce the occasional upset stomach and promote healthy digestion.*

Spikenard oil

Nardostachys jatamansi

- **Aroma:** Earthy
- **Benefits/Uses:** The earthy aroma of Spikenard is calming and uplifting to the mood. When used on the skin, it purifies and leaves behind a clean, healthy glow.

Tangerine oil

Rosmarinus officinalis

- **Aroma:** Citrus
- **Benefits/Uses:** Diffusing Tangerine helps to purify and cleanse the air, or using it in a homemade cleaner also cleanses and purifies surfaces. The delicious flavor of Tangerine is made all-the-sweeter with some amazing internal benefits: supporting a healthy digestive system and metabolism.*

Thyme oil

Botanical Name: Thymus vulgaris

Aroma: Herbaceous, medicinal

Benefits/Uses: Supports immune system, respiratory function, and digestive health.

Additional Information: Derived from thyme leaves, used in cooking and aromatherapy.

Vetiver oil

Botanical Name: Vetiveria zizanoides

Aroma: Woody, earthy

Benefits/Uses: Promotes relaxation, supports skin health, repels insects.

Additional Information: Derived from vetiver roots, used in perfumery and aromatherapy.

Wild Orange oil

Citrus sinensis

- **Aroma:** Citrus
- **Uses/Benefits:** When the weather gets cold outside, Wild Orange is a great go-to to keep your healthy immune system supported.* Wild Orange contains powerful antioxidants to maintain overall health and protect from oxidation.*

Wintergreen oil

Gaultheria procumbens

- **Aroma:** Herbaceous
- **Benefits/Uses:** Wintergreen is a useful massage oil when you need to unwind, relieve tension, or reduce occasional stress. You can add a drop or two to your facewash to reduce the appearance of blemishes.

Ylang Ylang oil

Botanical Name: *Cananga odorata*

Aroma: Floral

Benefits/Uses: Promotes relaxation, enhances mood, supports skin and hair health.

Additional Information: Derived from ylang ylang flowers, used in perfumery and aromatherapy.
